American Medical Students Association: Berkeley Premedical Chapter	The mission of the American Medical Student Association is to develop professionalism and activism in our members as physicians-in-training. We aim to prepare students for medical school by providing resources, support, and leadership development. As activists, we seek to educate premedical students about public health issues and advocacy, such as health policy, the culture of medicine, global health, and preventative medicine. We believe that comprehensive medical education is necessary for the development of every physician. If you are pre-med or pre-health, please consider joining our community!	<a href="#">American Medical Students Association: Berkeley Premedical Chapter</a> - <a href="#">CallLink at UC Berkeley</a>		berkeleyamsa@gmail.com	Instagram - berkeleyamsa
American Medical Women's Association at Berkeley	AMWA at Berkeley is a Premedical division branch of the National American Medical Women's Association. AMWA membership is comprised of physicians, residents, medical students, pre-medical students, health care professionals, and supporters. AMWA is the oldest multispecialty organization dedicated to advancing women in medicine and improving women's health.  AMWA at Berkeley aims to advance women in medicine, advocate for equity, and ensure excellence in healthcare. We seek to continuously empower and inspire our members through providing a loving and supportive platform for voices to be heard and transform ideas into realities. As a chapter divided into five task force-focused sub-committees (Mental Health, Cancer & Women's Health, Gender & Sexual Health, Childhood Nutrition Education, Diversity in Medicine), we love to discuss topics that include women in medicine, women's health, and gender equity. And, as a professional and community service-oriented organization, AMWA Berkeley offers opportunities for mentorship, professional development, volunteering, and support for individuals interested in healthcare careers.	<a href="#">American Medical Women's Association at Berkeley</a> - <a href="#">CallLink at UC Berkeley</a>	Melissa Landerson (melissalanderos@berkeley.edu)	amwaberkeley@gmail.com	Instagram - amwaberkeley
Asian American and Pacific Islander Health Research Group	We are a group of San Francisco Bay Area health professionals and UC Berkeley undergraduates/alumni. On this campus—where 42% of students identified as Asian American and Pacific Islander (AAPI) in 2008—there was not a single academic course devoted to the study of health in AAPI communities. The AAPI Health Research Group (AAPIHRG) was formed in 2008 to fill this void. The purpose of this group is to share our journey and findings in AAPI community health with other students and community professionals who may wish to join us or contribute to the work.  Although the aggregate data for our community paints a picture of a healthy population, we know that good health is not enjoyed by all. Our community is not homogeneous. The diversity of the many ethnic groups that make up the AAPI community presents challenges in obtaining accurate data. Students who come from these diverse backgrounds can be an important conduit in raising our awareness of health problems that exist in these communities. This can foster a deeper understanding of health in the broader AAPI community.	<a href="#">Asian American and Pacific Islander Health Research Group - CallLink at UC Berkeley</a>	Emily Enriquez (emilyenriquez@berkeley.edu)	aapihrg.info@gmail.com	Instagram - aapihrg
Bears for Palestine	Bears for Palestine is a student organization designated to enlighten, educate and raise awareness about Palestinian culture, values and history; with an overall goal to share the Palestinian story with the campus community through activism.	<a href="#">Bears for Palestine - CallLink at UC Berkeley</a>		info@bearsforpalestine.org	Instagram - bearsforpalestine
Berkeley Scientific Journal	BSJ is the premier undergraduate research journal of the University of California, Berkeley. Every semester, our undergraduate staff publishes independent research done by undergraduates at UC Berkeley, interviews with faculty members, and features articles on current issues in science. All research papers and features articles are reviewed by faculty members. The initial purpose of the journal was to provide an official forum in which Berkeley undergraduates could publish their independent research. But since its inception in 1996, the purpose of the journal has expanded to give the Berkeley scientific community a better understanding of how events here at Berkeley impact global concerns. The focus of the journal is broad, spanning scientific disciplines ranging from ecology to engineering, from astronomy to biochemistry. Our intended audience includes, but is not limited to, UC Berkeley students, faculty, and the surrounding community. A new issue of BSJ is published twice a year in print and on our website.  See our website, <a href="http://bsj.studentorg.berkeley.edu">bsj.studentorg.berkeley.edu</a> , for more information on the journal, and <a href="http://decal.berkeley.edu">decal.berkeley.edu</a> for a link to our application. You must submit an application to our DeCal for consideration as part of our journal; we do not accept membership requests through CallLink.	<a href="#">Berkeley Scientific Journal - CallLink at UC Berkeley</a>		bsj.berkeley@gmail.com	Instagram - bsj.berkeley

Black Advocates for Equity in Health	Black Advocates for Equity in Health (BAEH) was founded in 2018 to provide space and resources to support and empower Black students in the School of Public Health. We aim to foster community, create networking opportunities, and provide opportunities to connect with fellow students at SPH across disciplines. BAEH exists to promote health equity and address/dismantle structural anti-blackness on campus and beyond. Our vision is that the UC Berkeley School of Public Health and the field of public health at large are more diverse and representative of Black communities in the United States. We see a future in which Black-identifying individuals are empowered to be leaders in the field of public health and racial/ethnic health disparities are eliminated. The group is comprised of students, faculty and staff.	<a href="#">Black Advocates for Equity in Health</a> - <a href="#">CallLink at UC Berkeley</a>		baeh@berkeley.edu	
Black Students in Health Association	BSHA serves to provide guidance to Black students interested in the health sciences, medical education, and allied health fields; facilitates advising and special counseling of students interested in health professions and allied fields; provides students with career-advancing opportunities; provides a forum for the dissemination of information relevant to the education of students interested in health fields; and provides students with opportunities to support the Black community in a health-related manner.	<a href="#">Black Students in Health Association</a> - <a href="#">CallLink at UC Berkeley</a>		calbsha@gmail.com	Instagram - calbsha
Cal Undergraduate Public Health Coalition -- Global Health Committee	The International Health Committee at Cal UPHC seeks not only to explore public health at the international level, but also to integrate the ideals of cultural humility and diversity into health on campus, and to cultivate a global mindset in health. International Health includes all fields of public health and focuses primarily on the health problems of low- and middle-income countries. (American Public Health Association)	<a href="https://www.caluphc.com/global-health.html">https://www.caluphc.com/global-health.html</a>	Kiana Dokanchi	sphug@berkeley.edu	caluphc
California Health Professional Student Alliance at Berkeley	<p>The idea and first versions of CaHPSA, active under several different names, started around 2005 as a loose association of campus level leaders who had a passion for health reform and primarily organized around Lobby Day each year. Parker Duncan, the first Medical Student Fellow, was extremely involved in the development of the student leaders during these years.</p> <p>In 2009, involved campus student leaders, along with the statewide Lobby Day team, held their first student leadership meeting to brainstorm ways to structure the organization for the future. There was a general consensus that additional organization at the state level could be a useful tool for CaHPSA. The mission statement was developed from a rougher draft of the previous year. The core functions of the organization were agreed upon to be "Educate – Advocate – Grow" and statewide positions were developed from these core functions.</p> <p>CaHPSA at Berkeley too aligns with the belief "health justice for all" and endeavors to carrying the following goals:</p> <p>Support efforts to improve quality of and access to health care in California Provide opportunities for students to develop health advocacy and communication skills Educate and train future health and medical professionals to become effective health advocates Engender a sense of social responsibility among students Advocate for a single-payer health system</p>	<a href="#">California Health Professional Student Alliance at Berkeley</a> - <a href="#">CallLink at UC Berkeley</a>		cahpsa.berkeley@gmail.com	Instagram - cahpsaberkeley
Casa Esperanza	Casa Esperanza serves a shelter for women and children survivors of domestic abuse in Ensenada, Mexico. We aid these families by providing financial and emotional support, as well as creating health, wellness, and social empowerment programming to help them regain stability. We plan multiple trips to Mexico throughout the year. We fundraise depending on their specific needs, including funds for cleaning and hygiene products, clothing, bills, and scholarships for higher education. We create health workshops to bring health services to the women and children and to teach them how to maintain healthy practices. We also conduct social empowerment workshops, including career and educational support, to help the families at the shelter regain independence. Our mission is to bring UC Berkeley students of varied professional pathways together to both enhance our cultural awareness and collectively serve those in need.	<a href="#">Casa Esperanza</a> - <a href="#">CallLink at UC Berkeley</a>		casaesperanzaberkeley@gmail.com	Instagram - casaesperanzaberkeley

Comunidad for Health Equity	Comunidad for Health Equity (CHE) is a pre-health/pre-med student-run organization at UC Berkeley that educates, empowers, and advocates for the health of the Latinx community. We are students pursuing a career in the health field (Doctors, Nurses, Dentists, Optometrists, Public Health professionals, etc.) and are interested in health issues that affect the Latinx community. Our goals are to motivate students, instill the desire to help the underserved, create a supportive environment, and provide health resources to empower the communities of Berkeley and Oakland. Our organization's General Meetings feature esteemed Latinx health professionals as guest speakers, conducting informative workshops on crucial topics like healthcare reform, mental health, and diabetes, and participating in the Minorities in Health Conference. We also prioritize community service, networking, and team-building events, while organizing socials and fundraisers like Taco Sales on Sproul. We provide academic support through study hours, and volunteering opportunities in Oakland, Richmond, El Cerrito, and many more underserved communities. We also offer scholarships for Latinx students and opportunities for leadership development through our Intern Program with Board Officers.	<a href="#">Comunidad for Health Equity</a> - <a href="#">CalLink at UC Berkeley</a>		checochair1@gmail.com	Instagram - ucberkeleyche
Global Health Brigades at Berkeley	Global Brigades is a student-operated international volunteer organization whose mission is to provide sustained healthcare to underserved communities throughout the world. This organization works toward decreasing life-threatening diseases by improving health education and creating a means of transportation and access to wellness products and public health infrastructures. Our chapter's goal is to maximize the use of a week long brigade to advocate for a holistic approach to healthcare and prepare students for their future medical endeavors.	<a href="#">Global Health Brigades at Berkeley</a> - <a href="#">CalLink at UC Berkeley</a>		melinab21@berkeley.edu	Instagram - ucb.ghb
Global Medical Training	Global Medical Training (GMT) is an organization that is focused entirely on our motto, "LEARN BY DOING." It gives students a unique chance to participate in more "hands-on"	<a href="#">Global Medical Training</a> - <a href="#">CalLink at UC Berkeley</a>		gmtucberkeley@gmail.com	Instagram - gmtcal
Global Poverty and Practice Student Association at Berkeley	GPPSA aims to provide a space for students currently enrolled in the GPP minor to connect with other members of the Berkeley community who are interested in issues of poverty alleviation policies, programs, institutions, and social movements	<a href="#">Global Poverty and Practice Student Association at Berkeley</a> - <a href="#">CalLink at UC Berkeley</a>		gppminor@berkeley.edu	
GlobeMed at Berkeley	GlobeMed at Berkeley is a student-led organization dedicated to addressing global health and social justice issues. We support movements created within and managed by local community members working to improve their community's health conditions. We work with the Department of Community Programs within Dhulikhel Hospital in Nepal and have helped create projects promoting pesticide-use awareness among farmers in Baluwa, Nepal and water sanitation, hygiene, nutrition, and menstrual health for children at schools in Bolde, Nepal. Through partnership, discussion, activism, and education, we disband social hierarchies and systems of oppression with the goal of addressing health disparities in our local community and worldwide.	<a href="#">GlobeMed at Berkeley</a> - <a href="#">CalLink at UC Berkeley</a>		berkeley@globemed.org	Instagram - globemed.berkeley
Infectious Diseases and Immunity PhD Student Group	The Infectious Diseases and Immunity PhD Student Group provides a forum for the IDI PhD students to discuss programmatic issues, plan and organize activities, and foster a sense of community between the students.	<a href="#">Infectious Diseases and Immunity PhD Student Group</a> - <a href="#">CalLink at UC Berkeley</a>		marize_rizkalla@berkeley.edu	
Issues: Berkeley Medical Journal	Each semester in the Berkeley Medical Journal, we showcase original articles by UC Berkeley undergraduates exploring cutting-edge medical innovations, public health issues, and biomedical research in the Bay Area. Students in this DeCal will take on the role of scientific journalists. Paired with an editor, they will choose their own topics, and write a short report and a feature piece, with the chance to be published in the Berkeley Medical Journal. Throughout the semester, students will engage in workshops, peer reviews, and editorial meetings designed to strengthen their scientific communication skills. In addition to guided writing support, students will complete short assignments to deepen their understanding of science journalism, conduct an interview with a research expert, and will have the opportunity to interact with an industry professional at our semesterly guest lecture. The course culminates in a final presentation of each student's feature article. Selected articles will be considered for publication in the Berkeley Medical Journal.	<a href="#">Issues: Berkeley Medical Journal</a> - <a href="#">CalLink at UC Berkeley</a>		bmjatlcal@gmail.com	Instagram - bmjcal

Medical Reallocation Initiative	<p>MRI aims to support underserved communities abroad by facilitating the reallocation of unused medical supplies from clinics and hospitals in the US. While other organizations may provide service to communities abroad by visiting different countries and joining frontline work, our organization offers members an opportunity to make an equally substantial impact from Berkeley, primarily through resource allocation. Through our weekly fundraising events and service events with local partners, we constantly provide members with a variety of opportunities to make an impact.</p> <p>Apply now at <a href="https://mri.berkeley.edu!">https://mri.berkeley.edu!</a></p>	<a href="#">Medical Reallocation Initiative</a> - <a href="#">CalLink at UC Berkeley</a>		teambmri@gmail.com	Instagram - mri.berkeley
MEDLIFE	<p>MEDLIFE (Medicine, Education, and Development for Low-Income Families Everywhere) is an international non-profit organization dedicated to helping families achieve greater freedom from the constraints of poverty, empowering them to live healthier lives. Our club is great for any students interested in health equity and global health or students interested in pursuing health careers such as medicine or dentistry!</p> <p>To bring the mission of our acronym to the people in need, we work globally through our DeCal which focuses on global health issues, including topics such as the cultural and historical contexts of health disparities in Peru, where our summer and winter medical brigade is based. We also work and volunteer locally with our club at Berkeley. Our club will also feature global health professionals who will speak on topics in relation to health equity!</p> <p>Join our fight to systematically eradicate poverty through public health efforts and community development!</p>	<a href="#">ucbmedlife   Instagram   Linktree</a>		ucbmedlife@gmail.com	Instagram - ucbmedlife
Minorities in Health Conference	<p>Hosted by the Black Students in Health Association (BSHA), the Comunidad in Health Equity (CHE), the Pilipinx Association for Health Careers (PAHC), the Asian American Pacific Islander Health Research Group (AAPIHRG), and Cal Undergraduate Public Health Coalition (Cal UPHC), this free conference aims to educate students on health disparities that affect our communities and find ways to decrease these disparities by encouraging and inspiring both high school and undergraduate students to strive toward higher education and ultimately careers in health. Students will have the opportunity to network and interact with a variety of health professionals, medical students, and graduate students from schools throughout the Bay Area such as UCSF and UC Berkeley, attend beneficial workshops, participate in public health discussions, and better equip themselves for their journeys in these competitive career tracks. Additionally, students may have special access to free or greatly reduced MCAT and GRE Prep class by attending the conference and will have access to the UC Berkeley Health Careers Opportunity Program Manager for career and graduate education advising sessions after the conference.</p>	<a href="#">Minorities in Health Conference</a> - <a href="#">CalLink at UC Berkeley</a>			Instagram - minoritiesinhealth
Out in Science, Technology, Engineering, and Mathematics	<p>STEM aims to unite the LGBTQ+ students within the fields of science, technology, engineering, and mathematics to foster a strong professional and social network as well as to promote awareness of their presence in all communities.</p>	<a href="#">Out in Science, Technology, Engineering, and Mathematics</a> - <a href="#">CalLink at UC Berkeley</a>		ostemberkeley@gmail.com	
Palestinian Public Health at UC Berkeley	<p>Palestinian public health is an organization dedicated to global equity, mentorship, and advocacy. We provide marginalized representation in health along with mentorship and health resources promoting health equity and justice for all. This is a platform for Palestinians on At PIH Engage at Berkeley, we recognize a call to action against vast global health inequity.</p>	<a href="#">Palestinian Public Health at UC Berkeley</a> - <a href="#">CalLink at UC Berkeley</a>		pph.ucberkeley@gmail.com	Instagram - ucb_pph
Partners in Health Engage at Berkeley	<p>We leverage our position as members of the UC Berkeley community to support the work of international non-profit, Partners In Health, in improving health outcomes in the poorest regions of the world.</p> <p>We accomplish this through 3 core committees: Advocacy, Education, and Fundraising.</p> <p>We seek to treat not only the symptoms but the causes of vast health inequity, and to do so whilst prioritizing the dignity of patients and partnering with local organizations.</p> <p>We are committed to building a fun and diverse community of individuals from across disciplines, experiences, and skills: all championing the cause of global health.</p> <p>In everything we do we keep the advancement of the right to health at the forefront of our actions.</p>	<a href="#">Partners In Health Engage at Berkeley</a> - <a href="#">CalLink at UC Berkeley</a>		pih.engage.ucberkeley@gmail.com	Instagram - piheberkeley

Pilipino Association for Health Careers	<p>The Pilipino Association for Health Careers started through a group of students who recognized the need for a support system among Cal pre-health students. PAHC aims to promote current health issues in and around the Pilipino community, as well as extended communities. We develop a structure of dedicated students to integrate their knowledge, experience, and skills to seek information on various health issues and careers. PAHC provides information and services to aid the Pilipino community especially and, in addition, to all who are health conscious both academically and individually.</p> <p>Mission: To serve as a support group for those who are interested in health careers and to educate the community of health-related issues relative to Pilipinos and their extended communities.</p>	<a href="#">Pilipino Association for Health Careers</a> - <a href="#">CalLink at UC Berkeley</a>		pahc.exec@gmail.com	Instagram - ucbpahc
Project Reproductive Health Justice	<p>Project RHJ's mission is to ensure students are informed on their rights and access to reproductive healthcare. In times of uncertainty, keeping communities connected and informed on current events and changing accessibility is what our organization places our greatest value on. Through presenting approachable educational content on reproductive justice, offering safe spaces for discussions on reproductive health, and providing peer-to-peer healthcare resources, we aim to keep our communities informed and passionate about reproductive freedom and accessible reproductive healthcare.</p>	<a href="#">Project Reproductive Health Justice</a> - <a href="#">CalLink at UC Berkeley</a>		projectrhj@gmail.com	Instagram - projectrhj
Project RISHI	<p>Project RISHI is promoting the sustainable development and growth of rural Indian communities. <i>It continues expanding our resources in order to assist our villagers at anytime</i></p>	<a href="https://www.ucbprojectrishi.org/">https://www.ucbprojectrishi.org/</a>		ucberkeley@projectrishi.org	ucbprojectrishi
Project Shifa	<p>Our mission is to empower students, immigrants, marginalized communities, and refugees by providing accessible healthcare resources and educational support, bridging gaps in healthcare access and education through outreach, mentorship, and community-driven initiatives.</p>	<a href="#">Home   Project Shifa</a>		projectshifa.us@gmail.com	Instagram - project.shifa
Student Association for Environmental Justice and Health Equity	<p>We blend cutting-edge research, policy analysis, and hands-on activism to tackle the pressing environmental issues of our time and their impacts on community health. Through producing digital archives that promote environmental research, engaging with local politics, prioritizing community outreach, and assisting with environmental clean-up efforts, we are here to make a difference in our local and global communities. Plus, we team up with various environmental organizations to engage in conservation research and education events, giving you the chance to network and gain real-world experience in the intersection of environmental research, policy, and activism!</p>	<a href="#">Student Association for Environmental Justice and Health Equity</a> - <a href="#">CalLink at UC Berkeley</a>		saejhe.berkeley@gmail.com	Instagram - saejhe.berkeley
Students for Comprehensive Healthcare	<p>Students for Comprehensive Healthcare (formerly known as CCMP at Berkeley) empowers students to use their skills and knowledge to help disadvantaged community members overcome systemic barriers to comprehensive healthcare. Through our club meetings and training, we will prepare our members to serve as health advocates at an organization in Oakland called Coalition of Concerned Medical Professionals (CCMP) and make a difference in our community.</p>	<a href="#">Students for Comprehensive Healthcare (formerly Coalition of Concerned Medical Professionals at Berkeley)</a> - <a href="#">CalLink at UC Berkeley</a>		schberkeley@gmail.com	Instagram - schberkeley
Students for Sexual and Reproductive Freedom	<p>Our organization will organize a community of UC Berkeley undergraduate activists who can participate in events on UC Berkeley campus and in their surrounding communities to:</p> <p>Take action for reproductive freedom and demand change in a post-Roe America. Raise public awareness about reproductive health and rights including where people can receive abortions, STI testing, and gender-affirming care and the local law surrounding such procedures.</p> <p>Educate young people about sexual health including issues like STIs, PrEP use, condom use, consent, safety when exploring kink, drug use, prostitution, and more.</p> <p>Discuss the connections between reproductive health and other issues like race, LGBTQ rights, civil rights, immigration, the environment, and identity.</p> <p>Our focus on sexual health and abortion rights is vital in a time of terrifying attacks on our human rights including the recent destruction of Roe v. Wade and the wave of anti-trans legislation across the nation. Join us and take action!</p>	<a href="#">Students for Sexual and Reproductive Freedom</a> - <a href="#">CalLink at UC Berkeley</a>		ssrfucb@berkeley.edu	Instagram - ssrfucb
Students vs Pandemics	<p>Students vs Pandemics is a public health club that aims to improve communication about a different disease each year through education and outreach. Join one of our committees: Public Health Research, Supporting Houseless Populations, and Supporting Local Schools.</p>	<a href="#">Students vs Pandemics at Berkeley</a> - <a href="#">CalLink at UC Berkeley</a>		berkeleysvp@gmail.com	Instagram - berkeleysvp

Sustainable Housing at California	<p>SHAC is designing and building a more sustainable world through interdisciplinary building projects focused on energy, affordability, and scalability. We work closely with professionals and our community to promote and implement equitable building development processes and informed sustainability educational programs. All of our work draws heavily from political, urban planning, architectural, systems, and engineering theory.</p> <p>As a student-run organization at UC Berkeley, we provide opportunities for eager learners to apply academic knowledge to hands-on projects and gain experience in cutting-edge technologies and tools. Through our projects, members of the team will gain a better understanding of design processes, sustainable technologies, construction, marketing strategies, and other valuable technical and social skills. We participate in local and international competitions (eg. The Tiny House Competition and Solar Decathlon, respectively) where team members are encouraged to deepen their knowledge on their areas of interest.</p> <p>Through participation in these hands-on projects, members of the team will gain a better understanding of design processes, sustainable technologies, construction, marketing strategies, and other valuable technical and social skills, all the while gaining real world experience. By applying this knowledge to the creation of highly efficient houses that rely entirely on renewable energy sources, students will have the opportunity to convert abstract concepts into a tangible learning experience and product. Our projects will serve as a platform to showcase solar and renewable energy technologies in addition to contributing to an ever-broadening body of work about sustainable building practices, embodying Berkeley's innovative spirit and leadership in the realms of sustainability, engineering, and interdisciplinary collaboration.</p>	<a href="#">Sustainable Housing at California - CallLink at UC Berkeley</a>		info@shac.studentorg.berkeley.edu	Instagram - calshac
The Period Project at Berkeley	Through our three pillars --education, advocacy, and service -- The Period Project at Berkeley is constantly advocating for freely accessible menstrual products, providing menstrual products to those in need, and educating the community about period hygiene awareness.	<a href="#">Period Project at Berkeley, The - CallLink at UC Berkeley</a>		period.berkeley@gmail.com	Instagram - period.berkeley
The Public Health Advocate	The Public Health Advocate (PHA) is an undergraduate publication located in the University of California, Berkeley featuring current public health issues with local, national, and international perspectives. The Public Health Advocate is dedicated to giving students interested in health the opportunity for their work to be published in our print issue or our online platform.	<a href="https://pha.berkeley.edu/">https://pha.berkeley.edu/</a>	Tanmayi Patharkar	publichealthadvocate@gmail.com	The Public Health Advocate
Undergraduate Street Medicine Outreach	We are a UCB student organization dedicated to reducing the barriers local unhoused members of society face with regards to basic necessities and resources. All are welcome.	<a href="#">Undergraduate Street Medicine Outreach - Call link at UC Berkeley</a>		ucbusmo@gmail.com	Instagram - ucb_usmo
United for Health at Berkeley	By serving as an interface between the UC Berkeley campus and UFH clinicians, we will continue to provide services of acupuncture and nutritional counseling and education. This treatment model reduces stress, anxiety, depression, and chemical issues for UC Berkeley students and the campus community. The Hope on the Go Clinics have successfully operated at the UC Berkeley Student CoOps, the Tang Health Center, and the Moffitt Library benefiting hundreds of students on a drop-in basis. Please join our RSO so we may continue to offer our services to you and your fellow students on a regular basis to combat your daily stress! Email us at hope.unitedforhealth@gmail.com to volunteer or with questions.	<a href="#">United For Health at Berkeley - CallLink at UC Berkeley</a>		hope.unitedforhealth@gmail.com	Instagram - hope.onthego
Volunteers for Medical Outreach	Every school year, members of Volunteers for Medical Outreach organize various events in order to raise funds for our cause. 100% of the proceeds we make go directly toward funding mobile health clinics, Hepatitis B vaccinations and corrective surgeries for underserved areas in the global community. During the summer, we travel abroad to volunteer amongst doctors, dentists, and pharmacists at the mobile health and vaccination clinics that we fund, teach public health lessons to the communities we visit, visit hospitals to view the disparities of healthcare systems in different countries, and serve the community in non-medically related ways as well. So far, VMO has established a strong presence in Southern and Central Vietnam, but we are hopeful about expanding our services to other countries as our organization continues to grow.	<a href="#">Volunteers for Medical Outreach - CallLink at UC Berkeley</a>		calvmo@gmail.com	Instagram - calvmo
