Advancing Black Students in Medicine	ABSM @ UC Irvine is a student run initiative with a mission to empower Black students on UC Irvine's campus by equipping them with the necessary skills to thrive in their academic & healthcare aspirations. By dismantling obstacles faced by Black students and fostering connections with diverse medical pathways, we aim to revolutionize the journey to healthcare.	<a href="#">Home - Advancing Black Students in Medicine   UC Irvine</a>	Contact via website	
Anteater Emergency Medical Services	AEMS is a student-run organization of EMTs serving UCI since 2017. Join us to gain critical hands-on experience with clinical skills required in emergency situations, an introduction into the world of medicine with engaging guest lecturers, and valuable mentorship from current medical professionals. We promote advancement in EMS education through Stop the Bleed courses held on campus and help students interested in EMS become successful healthcare professionals. Through serving the university community, AEMS also provides a path for students to become licensed health care providers, serve the campus in meaningful ways, gain patient care experience, and immerse themselves in the world of EMS.	<a href="#">Anteater Emergency Medical Services</a>	anteaterems@gmail.com	Instagram - @anteaterems
Anteaters for Health Equity	Anteaters for Health Equity is a group of UCI students passionate about the many areas within health equity/healthcare. Our core mission is to keep our members informed of a myriad of contemporary issues under the umbrella of health equity. This includes social determinants of health, varying health outcomes for different ethnic groups in Orange County and beyond, and proper racial/ethnic representation in clinical trials, among other topics. Our second core mission is to expose our members to health advocacy. We aim to collaborate with local organizations (i.e Equity in OC and the Chao Family Comprehensive Cancer Center) to advocate for health equity. This will come in the form of boozing around campus, attending meetings/advocacy groups, giving presentations in public health courses, and hosting informative sessions for the general student body and faculty. We also aim to provide a welcoming environment and to host social events for our members.	<a href="#">Home - Anteaters for Health Equity   UC Irvine</a>	Contact via website	
Armenian Pre-Health Society	This organization is dedicated toward educating Armenian Undergraduate Students regarding different healthcare occupations by hosting guest speakers (doctors, medical students, health administrators, etc.) and providing valuable tools and resources to guide students through the processes of graduate school admissions, standardized tests, and getting involved in research.	<a href="#">Home - Armenian Pre-Health Society at UC Irvine   UC Irvine</a>	Contact via website	
CampMed @ UCI	<p>CampMed at UCI is a student-run high school outreach program that was founded by UCI medical and undergraduate students in 1997. They saw the need for a local program that would target socio-economically disadvantaged high school students interested in pursuing higher education, especially in the health science fields.</p> <p>Currently in its 27th year of existence, CampMed at UCI has already reached over 5,000 high school students from Los Angeles and Orange County schools. In addition, the CampMed program has expanded to other UC campuses such as UCLA (2013) and UC Riverside (2016).</p>	<a href="#">Home   home</a>	campmed@gmail.com	Instagram - @ucicampmed
Chicanos/Latinos for Community Medicine	Our mission is to cultivate an inclusive community of Latinx and underrepresented students committed to addressing health disparities through service, education, and advocacy for underserved populations by fostering a diverse network.	<a href="#">Home - Chicanos/Latinos for Community Medicine   UC Irvine</a>	Contact via website	
Earth System Science Club	The Earth System Science Club is an undergraduate student-run organization committed to bringing together individuals interested in the field of Earth System Science as a community. We are open to all majors who want to join the club. We collaborate with the Department of Earth System Science to help guide students through their college experience. Our club general meetings provide professional networking opportunities, speaker presentations, internship informations, and career workshops, which vary from week to week. Our special events provide a Networking night during the Winter Quarter and an Industry Networking Night during the Spring Quarter for members and students. We'll do our best to help prepare members and students for the real world.	<a href="#">Earth System Science Club   Instagram   Linktree</a>	esscrvine@gmail.com	Instagram - @essclub_uci
Global Health Research Education And Translation Club	Global Health Research, Education, and Translation (GHREAT) is a group committed to raising awareness about global health challenges within the UCI community by examining current news, trends, and research studies. With a strong focus on research and communication, GHREAT completes one research project each academic year. Through open discussions and an interdisciplinary approach, members deepen their understanding of global health issues locally and worldwide.	<a href="https://globalhealthuci.wixsite.com/ghreat/a-b-o-u-t-u-s">https://globalhealthuci.wixsite.com/ghreat/a-b-o-u-t-u-s</a>	globalhealth.uci@gmail.com	@ghreat.ucirvine
Global Medical Brigades	<p>The Global Medical Brigades (GMB) is a nonprofit that partners with communities in countries like Guatemala, Honduras, Panama, Nicaragua, Greece, and Ghana to provide free healthcare clinics for underserved populations.</p> <p>At UCI, our club helps support these efforts by fundraising and learning about global healthcare before participating in either an in-person brigade trip or a virtual "telebrigade" during the spring or summer. Depending on the program, members have the chance to shadow doctors, work directly with patients across different specialties, and gain insight into international healthcare practices. By supporting these programs, we help strengthen GMB clinics and promote sustainable healthcare in the communities we serve.</p>	<a href="https://sites.google.com/view/gmb-at-uci/home">https://sites.google.com/view/gmb-at-uci/home</a>	gmbuci@gmail.com	@gmb.uci

Global Medical Training	<p>Global Medical Training is an international humanitarian organization that helps provide free medical services for impoverished communities, primarily in Central America. Our mission is two-fold: to offer healthcare to those that live in severe poverty while also giving students and health professionals a truly eye-opening experience that will expand their understanding of both medicine and life outside of the United States.</p> <p>The organization was founded by North American Physician, Dr. Wil Johnson, M.D., a lifelong humanitarian who has, and continues to implement his medical gifts for the benefit of those that cannot afford them. Global Medical Training reflects his philosophy, created with the intent to improve the condition and well-being of a global humanity. It is grounded upon the acknowledgement that undeserved suffering and unjust misery still runs rampant throughout the world. With this in mind, GMT provides students a unique opportunity to convert this knowledge into action, along with a life-changing educational experience that will undoubtedly stay with them for the rest of their lives. And through fundraisers, donations, and even money out of our own pockets, our international endeavors to provide free health care beyond the borders of the United States—to people deprived of not only adequate health care, but of even the basic necessities of life—have certainly yielded amazing results.</p>	<a href="#">About Us   gmtuci</a>		Instagram - @gmtuci
Graduate Public Health Association	<p>The mission of Grad PHA is to build a vibrant, inclusive community that enhances the graduate experience for public health students. They are committed to creating a safe, engaging space where diversity is celebrated and every student feels valued and supported. Through innovative events and initiatives, we aim to strengthen academic, social, and professional development, fostering collaboration, well-being, and growth. Grad PHA strives to empower students to succeed both during their time in graduate school and throughout their careers in public health. Our ultimate goal is to be a driving force that meets students' immediate needs while contributing to their long-term success and advancing the broader public health field.</p>	<a href="http://www.phagraduci.org/">http://www.phagraduci.org/</a>	<a href="https://campusgroups.uci.edu/gradpha/contact-us/">https://campusgroups.uci.edu/gradpha/contact-us/</a>	@ucigradpha
Health and Justice Advocates at UCI	<p>As public health students at the University of California, Irvine, we believe that we have a responsibility to support and take action regarding public policy decisions that impact the health and wellbeing of everyone globally from all communities. We believe that everyone deserves to live, work, study, and play in a healthy environment, to have access to good quality and affordable healthcare, and to live free from discrimination regardless of their race, ethnicity, gender, age, sexual orientation, disability or ability, religious affiliation, immigration status, or gender identity. This student group will engage in political advocacy efforts such as contacting state and national government representatives, starting petitions, letter, call, or email campaigns and attending events such as town halls in order to advocate around key public health issues including:</p> <ul style="list-style-type: none"> <li>• Discrimination against specific historically and contemporarily marginalized groups and its impact on health</li> <li>• Mental health, student wellness, and pedagogical wellness</li> <li>• Violence prevention, including firearms, injuries, and abuse among vulnerable populations</li> <li>• Access to reproductive and sexual health care services</li> <li>• Health and educational equity considerations from the COVID-19 pandemic</li> <li>• Health consequences (physical and mental) among undocumented immigrants and their families due to discrimination, lack of access to health care, and (threats of) deportation.</li> </ul>	<a href="https://zotspot.uci.edu/healthandjusticeadv/home/">https://zotspot.uci.edu/healthandjusticeadv/home/</a>	healthandjustice.uci@gmail.com	Instagram - @hjauci
HER Health Initiative	<p>The HER Health Initiative at UCI is committed to advancing and protecting female reproductive rights, believing that access to comprehensive and equitable reproductive healthcare is essential for achieving gender equality. Our mission is to create a welcoming space where women can come together to learn, share, and advocate for their own rights and the rights of women in our nation. Through our efforts, we aim to empower women with the knowledge, support, and confidence needed to advocate for reproductive rights for themselves and others. Our organization focuses on raising awareness of the critical issues surrounding reproductive justice and healthcare access. By hosting educational events, partnering with advocacy groups, and working with healthcare professionals, HER Health Initiative provides resources and learning opportunities to help our members become informed advocates. We emphasize the importance of understanding the broader social, economic, and political challenges that impact women's health, striving to inspire action and dialogue within our campus and community. HER Health Initiative envisions a world where reproductive health is viewed as a right, not a privilege. Through our collective efforts, we strive to inspire a new generation of advocates who are ready to support one another, challenge inequalities, and work toward a future in which all women feel safe, informed, and empowered to make choices about their health. Together, we are building a foundation of understanding, compassion, and advocacy for the rights and well-being of women everywhere.</p>	<a href="#">Home - HER Health Initiative   UC Irvine</a>	Contact via website	
MAES: Latinos in Science and Engineering	<p>MAES: Latinos in Science and Engineering was founded in Los Angeles in 1974 by professional engineers looking to increase the representation of Latinx in science, technology, engineering, and mathematics (STEM). They created opportunities and fostered recognition through professional, technical, and outreach activities.</p>	<a href="#">About Us - MAESatUCI</a>	maes@uci.edu	Instagram - @maesuci

<b>Medical Equality Operative</b>	MEO aims to enhance access to healthcare within Limited English Proficiency (LEP) Asian communities in the Orange County area. Asian-American communities face unique challenges in accessing healthcare due to their diverse ethnic groups, cultures. With the largest Vietnamese population outside of Vietnam, Orange County has a significant need for culturally and linguistically proficient liaisons to reduce the barriers faced by this community.	<a href="#">Home - Medical Equality Operative   UC Irvine</a>	Contact via website	
<b>Medical, Educational Missions &amp; Outreach</b>	Founded in 2007, M.E.M.O. (Medical, Educational Missions and Outreach) is a 501(c)(3) non-profit, student-run humanitarian organization at UCI, UCSD, and USC that aims to serve the underprivileged communities both locally in Southern California and abroad in Vietnam. Within SoCal, our students volunteer at local health fairs, food banks, and after-school programs. Additionally, M.E.M.O. has an annual mission trip, sending volunteers and healthcare professionals in order to offer medical relief, educational scholarships, life-saving heart surgeries, and much more to the underserved populations in Vietnam.	<a href="#">Home   Medical, Educational Missions &amp; Outreach (M.E.M.O.) at UCI</a>	Contact via website	Instagram - @memo_uci
<b>Ocean Club at UCI</b>	The primary purpose of the Ocean Club is to foster a community of individuals who share a passion for exploring and learning about the ocean and its surrounding environments, such as beaches, tide pools, and marine ecosystems. This club serves as a platform for students to connect, engage in ocean-related activities, and promote marine conservation awareness.	<a href="#">Home - Ocean Club at UCI   UC Irvine</a>	Contact via website	
<b>Pilipinx Pre-Health Undergraduate Student Organization</b>	The Pilipinx Pre-health Undergraduate Student Organization (PUSO) has established itself within the UCI campus for over 28 years. PUSO is dedicated to guiding and supporting students interested in the health field while at the same time serving our campus and community.  As stated within our constitution, PUSO's main objectives are to provide service, guidance and support to students interested in the health field while also fulfilling the needs of our surrounding community.	<a href="#">HOME   PUSO at UC Irvine</a>	publicity.puso@gmail.com	Instagram - @pusoatuci
<b>Pre-Health Alliance</b>	To spread awareness to the community as a pre-health organization working with all fields of medicine while educating our members on the available careers of healthcare to pursue. Here we aim to network amongst various influential organizations in hopes of educating and inspiring the general public and future health care professionals. We promote an interdisciplinary approach by working with all aspects of healthcare through community outreach, as well as clinical environments, while fostering network opportunities with healthcare professionals.	<a href="#">Pre-Health Alliance at UCI - Home</a>	prehealthallianceuci@gmail.com	Instagram - @prehealthallianceuci
<b>Pro-Health Journal Club</b>	Our mission at Pro-Health Journal Club is to create a community that serves students in different fields of STEM through their mutual interest in healthcare and research. We aim to help guide students in their efforts to comprehend and discuss scientific journals through academic discourse, collaboration and presentations. Students will develop scientific literacy and communication skills necessary to succeed in professional/graduate schools. Members have the ability to become mentors themselves through our outreach program, in which we conduct research workshops for students in high school and community colleges	<a href="#">Home - Pro-Health Journal Club   UC Irvine</a>	Contact via website	
<b>Public Health Mentorship Program</b>	The purpose of PHMP is to build community among the Public Health undergraduates by connecting new students with continuing students to develop long-term mentor-mentee relationships.	<a href="#">Home - Public Health Mentorship Program   UC Irvine</a>	phmentorprogram@gmail.com	
<b>Society for Advancement of Chicanos/Hispanics &amp; Native Americans in Science</b>	SACNAS is an inclusive organization dedicated to fostering the success of Chicanos/Hispanics and Native Americans from college students to professionals, in attaining advanced degrees, careers, and positions of leadership in STEM.	<a href="#">SACNAS @ UCI – Society for Advancement of Chicanos/Hispanics &amp; Native Americans in Science</a>	sacnas@uci.edu	Instagram - @sacnasatuci
<b>Student National Medical Association @ UCI</b>	The Student National Medical Association at the University of California, Irvine (SNMA@UCI) is part of the nation's oldest and largest student organization focused on the needs and concerns of medical students of color. SNMA programs are designed to serve the health needs of underserved communities and communities of color. In addition, SNMA is dedicated both to ensuring that medical education and services are culturally sensitive to the needs of diverse populations and to increasing the number of African-American, Latino, and other students of color both admitted to and completing medical school. Community service and outreach is at the heart and soul of the SNMA. SNMA history dates back over 45 years to the first chapter established in 1964 by medical students from Howard University School of Medicine and Meharry Medical College. National membership includes more than 7,000 medical students, pre-medical students, residents and physicians.	<a href="#">Home - Student National Medical Association @ UCI (SNMA)   UC Irvine</a>	snmauci@gmail.com	
<b>Sustainable and Just Future at UCI</b>	Empowering students towards a more sustainable and just future.	<a href="#">Home - Sustainable and Just Future at UCI   UC Irvine</a>	sjf.uci@gmail.com	Instagram - @sustainableandjustfuture.uci
