

Class Code	Class Title	Link	Instructor Name	Instructor Contact Information	Units	Quarter/Semester Offered	Description	Course Level (Undergrad, Grad, etc.)	Host Department	Host College/School
ANTH 020	Culture, Health, and Healing	<a href="https://www.coursicle.com/ucr/courses/ANTH/020">https://www.coursicle.com/ucr/courses/ANTH/020</a>	Isabelle Placentia, Ph.D	marie.placentia@email.ucr.edu	4	Fall	Surveys health, disease, curing, and nutrition in a cross-cultural perspective. Covers how different cultural groups consider disease, health maintenance, and healing; how traditional beliefs about health and nutrition arise; and what one can and cannot learn from traditional health-seeking practices.	Undergraduate	Department of Anthropology	CHASS
ANTH 106	Gender and Genocide	<a href="https://www.coursicle.com/ucr/courses/ANTH/106">ANTH 106 - Gender and Genocide at the University of California, Riverside   Coursicle UCR</a>	Jessica Rehman, Ph.D	jessica.rehman@email.ucr.edu	4	Fall	Examines gendered dimensions of contemporary and historical genocides. Analyzes the ways gender ideologies intersect racialization and ethnic marking. Explores how gender shapes selection, forced labor, torture, and murder. Considers gender ideologies in relation to collective, institutional, and individual responses to genocide and genocidal campaigns. Cross-listed with GSST 125.	Undergraduate	Anthropology	CHASS
ANTH 144E	Culture and Medicine	<a href="https://www.coursicle.com/ucr/courses/ANTH/144E">ANTH 144E - Culture and Medicine at the University of California, Riverside   Coursicle UCR</a>	Isabelle Placentia, Ph.D	marie.placentia@email.ucr.edu	4	Winter	Explores the interrelations of health, illness, and culture. Addresses cross-cultural comparisons of health and healing and the effects of cultural systems on health and illness. Examines a diversity of societies and their belief systems and the effects of cultural change (historical and modern) on health and wellbeing.	Undergraduate	Anthropology	CHASS
ANTH 144F	Gender, Race, and Medicine	<a href="https://www.coursicle.com/ucr/courses/ANTH/144F">ANTH 144F - Gender, Race, and Medicine at the University of California, Riverside   Coursicle UCR</a>	Tamara Ho, Ph.D	tamara.ho@email.ucr.edu	4	Fall, Winter, Spring	Explores the relationship between Western medicine and women, racial minorities, and non-Western citizens. Investigates how gender ideology, racial inequity, and colonialism shape the medical representation of bodies, sexuality, and pathology. Examines how patients have renegotiated their relationships with medicine through health movements and alternative healing practices. Cross-listed with GSST 185.	Undergraduate	Anthropology	CHASS
ANTH 144J	Biological Approaches to Medical Anthropology	<a href="https://www.coursicle.com/ucr/courses/ANTH/144J">ANTH 144J - Biological Approaches to Medcl Anth at the University of California, Riverside   Coursicle UCR</a>	Sara Becker, Ph.D	sara.becker@email.ucr.edu	4	Spring	Introduces medical anthropology from the biological perspective. Explores topics on evolution, health, and medicine; human biological variation in relation to disease; bioarchaeology; and the history of health. Takes the integrative and multidisciplinary approach.	Undergraduate	Anthropology	CHASS
ANTH 144K	Drugs and Culture	<a href="https://www.coursicle.com/ucr/courses/SEHE/182">https://www.coursicle.com/ucr/courses/SEHE/182</a>	Jennifer Syvertsen, Ph.D	jennifer.syvertsen@email.ucr.edu	4	Winter	A cross-cultural examination of drug use and its relation to race, class, gender, morality, laws, and health policy. Cross-listed with ANTH 144K.	Undergraduate	Society, Environment, and Health Equity	CHASS
ANTH 144M	Political Economy of Health	<a href="https://www.coursicle.com/ucr/courses/ANTH/144M">ANTH 144M - Political Economy of Health at the University of California, Riverside   Coursicle UCR</a>	Isabelle Placentia, Ph.D	marie.placentia@email.ucr.edu	4	Spring	Examines critical medical anthropology. Focuses on the linkages between political economy, health, and healthcare systems in modern societies. Considers the effects of poverty, occupation, and environmental transformation in particular social contexts. Reviews four case studies: the political economy of HIV/AIDS, poverty, famine, and nuclear regulation.	Undergraduate	Anthropology	CHASS
ANTH 144N	Anthropology of Global Health	<a href="https://www.coursicle.com/ucr/courses/ANTH/144N">ANTH 144N - Anthropology of Global Health at the University of California, Riverside   Coursicle UCR</a>	Jennifer Syvertsen, Ph.D	jennifer.syvertsen@email.ucr.edu	4	Fall	Examines the overlaps, debates, and potential of medical anthropology to address contemporary issues in global health. Focuses on how the historical development, theoretical frameworks, methodological approaches, and ethical debates within medical anthropology can contribute to a just and inclusive version of global health. Cross-listed with ANTH 144N.	Undergraduate	Anthropology	CHASS
BIOL 030	Human Reproduction and Sexual Behavior	<a href="https://www.coursicle.com/ucr/courses/BIOL/030">BIOL 030 - Human Reproduction and Sexual Behavior at the University of California, Riverside   Coursicle UCR</a>	Tracy Kahn, Ph.D	tracy.kahn@email.ucr.edu	4	Fall	A consideration of human anatomy, physiology and behavior as related to sexual reproduction, including discussion of fertility, pregnancy, childbirth and birth control. Consideration will also be given to homosexuality, venereal diseases, sex education, sexual intercourse and response.	Undergraduate	Biology	College of Natural & Agricultural Resources
BIOL 128	Immunology	<a href="https://www.coursicle.com/ucr/courses/BIOL/128">BIOL 128 - Immunology at the University of California, Riverside   Coursicle UCR</a>	Brian Duistermars, Ph.D	brian.duistermars1@email.ucr.edu	3-4	Fall, Spring	A study of humoral and cellular immunology. Topics include lymphoid systems, cells, antigens, antibodies, antibody formation, cellular immunity, and tumor and transplantation immunology. Discusses in detail diseases and altered immune states associated with each topic.	Undergraduate	Biology	College of Natural & Agricultural Resources
BLKS 001	Black Study	<a href="https://www.coursicle.com/ucr/courses/BLKS/001">https://www.coursicle.com/ucr/courses/BLKS/001</a>	Joao Vargas, Ph.D	joao.vargas@email.ucr.edu	4	Fall	Introduces social issues and movements impacting Black peoples globally. Studies creation of possibilities to navigate issues (e.g., AIDS and other pandemics, food and nutrition insecurity, state terror and industrial incarceration, residential segregation, exposure to environmental toxins, and health and education inequities) to create vibrant futures.	Undergraduate	Black Studies	CHASS
BLKS 114	Black Healing Traditions	<a href="https://www.coursicle.com/ucr/courses/BLKS/114">https://www.coursicle.com/ucr/courses/BLKS/114</a>	Elyse Ambrose, Ph.D	elyse.ambrose@email.ucr.edu	4	Spring	Explores healing traditions as religious experiences and technologies for countering oppressive social conditions and human precarity. Examines the role of black healing traditions in disrupting normative ideas of Black Religion and liberation. Interrogates commodification of black healing in the United States.	Undergraduate	Black Studies	CHASS
BLKS 131	Blackness in the Social Sciences	<a href="https://www.coursicle.com/ucr/courses/BLKS/131">BLKS 131 - Blackness in the Social Sciences at the University of California, Riverside   Coursicle UCR</a>	Anthony Jerry, Ph.D	anthony.jerry001@email.ucr.edu	4	Winter	Explores how different disciplines within the social sciences have approached Blackness and how Black social scientists have impacted the theoretical and analytical frameworks of these disciplines.	Undergraduate	Black Studies	CHASS
CBNS 128	Immunology	<a href="https://www.coursicle.com/ucr/courses/CBNS/128">BIOL 128 - Immunology at the University of California, Riverside   Coursicle UCR</a>	Brian Duistermars, Ph.D	brian.duistermars1@email.ucr.edu	3-4	Fall, Spring	A study of humoral and cellular immunology. Topics include lymphoid systems, cells, antigens, antibodies, antibody formation, cellular immunity, and tumor and transplantation immunology. Discusses in detail diseases and altered immune states associated with each topic.	Undergraduate	Biology	College of Natural & Agricultural Resources
ECON 129	Health Economics	<a href="https://www.coursicle.com/ucr/courses/ECON/129">https://www.coursicle.com/ucr/courses/ECON/129</a>	Ajin Lee, Ph.D	ajin.lee@email.ucr.edu	4	Winter, Spring	Analyzes the demand and supply of health care. Uses economic models to analyze health care choices of individuals. Covers the market for health insurance and the behavior of for-profit and not-for-profit health care providers regarding price, quantity, and service quality under various market structures.	Undergraduate	Economics	CHASS
ENGL 022	Writing Red	<a href="https://www.coursicle.com/ucr/courses/ENGL/022">https://www.coursicle.com/ucr/courses/ENGL/022</a>	Mark Minch, Ph.D	mark.minch@email.ucr.edu	4	Fall, Spring	Discusses mass-mediated images of Native Americans and how "Indianness" is constructed, contested, and embodied in poetry, film, autobiography, fiction, and photography.	Undergraduate	English	CHASS

Class Code	Class Title	Link	Instructor Name	Instructor Contact Information	Units	Quarter/Semester Offered	Description	Course Level (Undergrad, Grad, etc.)	Host Department	Host College/School
ENSC 004	Climate Change in California	<a href="#">ENSC 004 - Climate Change in California at the University of California, Riverside   Coursicle UCR</a>	Francesca Hopkins, Ph.D	francesca.hopkins@ucr.edu	4	Spring	Introduction to the science of contemporary climate change including the drivers and impacts of change to date and into the future focusing on inland Southern California. Addresses individuals facing the climate crisis as well as explores possible solutions to the causes and consequences of climate change.	Undergraduate	Environmental Sciences	College of Natural & Agricultural Resources
ENSC 103	Environmental Pollution and Health	<a href="#">ENSC 103 - Environmental Pollution and Health at the University of California, Riverside   Coursicle UCR</a>	David Volz, Ph.D	david.volz@ucr.edu	4	Fall, Spring	Focuses on the history, theory, and practice of assessing, understanding, and mitigating impacts of the natural and built environment on human health. Reviews core disciplines that underpin the field of environmental health as well as case studies from industrialized, emerging, and developing countries around the world. Cross-listed with ENTX 103.	Undergraduate	Environmental Sciences	College of Natural & Agricultural Resources
ENSC 227	Global Change and the Earth System	<a href="#">ENSC 227 - Global Change and the Earth System at the University of California, Riverside   Coursicle UCR</a>	Francesca Hopkins, Ph.D	francesca.hopkins@ucr.edu	4	Fall, Winter	Examines the fundamental principles of Earth system science in the context of global change. Topics include the preindustrial and modern-day Earth system, responses of the Earth's support machinery to human activities, consequences of global change for human well-being, and pathways towards global sustainability.	Undergraduate	Environmental Sciences	College of Natural & Agricultural Resources
ENTX 101	Fundamental Toxicology	<a href="#">ENTX 101 - Fundamental Toxicology at the University of California, Riverside   Coursicle UCR</a>	Daniel Schlenk, Ph.D	daniel.schlenk@ucr.edu	4	Winter	Fundamental concepts relating to the adverse effects of chemical agents. Topics covered include dose-response relationships, absorption, distribution, metabolism, excretion, mechanisms of toxicity, and the effects of selected environmental toxicants on various organ systems. Characterization and assessment of risks are also covered.	Undergraduate	Environmental Toxicology	College of Natural & Agricultural Resources
ENTX 103	Environmental Pollution and Health	<a href="#">ENSC 103 - Environmental Pollution and Health at the University of California, Riverside   Coursicle UCR</a>	David Volz, Ph.D	david.volz@ucr.edu	4	Fall, Spring	Focuses on the history, theory, and practice of assessing, understanding, and mitigating impacts of the natural and built environment on human health. Reviews core disciplines that underpin the field of environmental health as well as case studies from industrialized, emerging, and developing countries around the world. Cross-listed with ENTX 103.	Undergraduate	Environmental Toxicology	College of Natural & Agricultural Resources
ENTX 201	Principles of Toxicology	<a href="#">ENTX 201 - Principles of Toxicology at the University of California, Riverside   Coursicle UCR</a>	David Volz, Ph.D	david.volz@ucr.edu	4	Fall, Winter	The structure-activity and dose-response relationships of environmental toxicants; their absorption, distribution, metabolism, and excretion; and evaluation of their toxicity and factors that influence toxicity. Quantitative methods in measuring acute and chronic toxicity.	Undergraduate	Environmental Toxicology	College of Natural & Agricultural Resources
ETST 116	Medicine Ways of Native Americans	<a href="#">https://www.coursicle.com/ucr/courses/ETST/116</a>	Clifford Trafzer, Ph.D	clifford.trafzer@ucr.edu	4	Fall	Explores the medical history of Native Americans. Focuses on traditional Native American medicine and how Western diseases, medical practices, health care, and policies influenced American Indian health. Topics include medicine people, rituals, ceremonies, smallpox, measles, influenza, anemia, accidents, diabetes, suicides, mental illness, and murders. Cross-listed with HISA 147.	Undergraduate	Ethnic Studies	CHASS
ETST 131	Race, Class, and Gender	<a href="#">ETST 131 - Race, Class, and Gender at the University of California, Riverside   Coursicle UCR</a>	Valerie Chacon, Ph.D	valerie.chacon@email.ucr.edu	4	Fall, Spring	Considers the interdependency of race, class, gender, and sexuality in relation to social inequality and oppression. Focuses on the intersection of components, as well as examines the experiences and strategies of resistance of poor, working class women of color and/or queer people of color.	Undergraduate	Ethnic Studies	CHASS
ETST 175	Gender, Ethnicity, and Borders	<a href="#">ETST 175 - Gender, Ethnicity, and Borders at the University of California, Riverside   Coursicle UCR</a>	Elizabeth Rubio, Ph.D	elizabeth.h.rubio@ucr.edu	4	Spring	Examines literary, theatrical, and visual sites where the "in-between" space of border cultures is mapped. Materials include autobiographies, testimonial literature, films, novels, performance scripts, and art. Focuses on the interplay of gender and ethnicity.	Undergraduate	Ethnic Studies	CHASS
ETST 179	Race and Environment: Nature, Colonialism, and Justice	<a href="#">ETST 179 - Race and Environment: Nature, Colonialism, and Justice at the University of California, Riverside   Coursicle UCR</a>	Charles Sepulveda, Ph.D	charles.sepulveda@email.ucr.edu	4	Fall	Explores the interdependent relationships between race and environment through law, policy, culture, geography, (settler) colonialism, and (racial) capitalism, focused on the United States. Topics include environmental and climate justice, decolonial and abolitionist thought, urban political ecology, and the social constructions of human, nonhuman, and "nature."	Undergraduate	Ethnic Studies	CHASS
GBST 001	Global History, Culture, and Ideas	<a href="#">GBST 001 - Global History, Culture, and Ideas at the University of California, Riverside   Coursicle UCR</a>	Linda Hall, Ph.D	linda.hall@email.ucr.edu	5	Fall, Winter, Spring	A survey of the historical and cultural processes that have made the world more interconnected.	Undergraduate	Global and Community Health	CHASS
GBST 002	Global Socioeconomic and Political Processes	<a href="#">GBST 002 - Global Socioeconomic and Political Processes at the University of California, Riverside   Coursicle UCR</a>	Bronwyn Leebaw, Ph.D	bronwyn.leebaw@ucr.edu	5	Fall, Spring	A survey of the economic, political, and physical processes that have made the world more interconnected.	Undergraduate	Global and Community Health	CHASS
GBST 102	Global Meditation Practices and the Contemplative Traditions of South Asia	<a href="#">GBST 102 - Global Meditation Practices and the Contemplative Traditions of South Asia at the University of California, Riverside   Coursicle UCR</a>	Farah Godrej, Ph.D	farah.godrej@ucr.edu	4	Spring	An overview of meditative traditions of South Asia that influenced global meditative practices. Investigates and compares distinctive traditions and their global political implications. Topics include the meaning and purpose of meditation, the influence of religious traditions, and the political implications of meditation. Includes regular practice of meditative and contemplative techniques	Undergraduate	Global and Community Health	CHASS
GBST 103	Food and Globalization	<a href="#">https://www.coursicle.com/ucr/courses/GBST/103</a>	Susan Ossman, Ph.D	susan.ossman@ucr.edu	4	Winter	n/a	Undergraduate	Global and Community Health	CHASS
GBST 133	Mindfulness, Climate Action, and Resilience	<a href="#">GBST 133 - Mindfulness, Climate Action, and Resilience at the University of California, Riverside   Coursicle UCR</a>	Selin Nielsen, Ph.D	selin.nielsen@email.ucr.edu	4	Spring	Develops personal and social skills to respond to the climate crisis and interrelated global crises (polycrisis). Reviews climate science and introduces the polycrisis concept. Develops mindfulness and other contemplative practices. Explores strategies for effective climate communication and action to navigate and build a meaningful future.	Undergraduate	Global and Community Health	CHASS

Class Code	Class Title	Link	Instructor Name	Instructor Contact Information	Units	Quarter/Semester Offered	Description	Course Level (Undergrad, Grad, etc.)	Host Department	Host College/School
GSST 013S	Gender and Disability	<a href="#">GSST 013S - Gender and Disability at the University of California, Riverside   Coursicle UCR</a>	Katja Guenther, Ph.D	katja.guenther@ucr.edu	5	Fall	Examines gender and disability from a feminist perspective. Explores how gender and disability shape all aspects of social life including institutions, identities, bodies, and discourses. Introduces feminist and queer theories of disability. Engages with societal responses to disability such as eugenics, exclusion, and institutionalization. Considers possibilities for feminist disability justice.	Undergraduate	Gender and Sexuality	CHASS
GSST 020	Women, Feminism, and Society in a Global Perspective	<a href="#">GSST 020 - Women, Feminism, and Society in a Global Perspective at the University of California, Riverside   Coursicle UCR</a>	Jennifer Simmers, Ph.D	kimea.simmers@email.ucr.edu	4	Spring	An introduction to the social, political, and legal concerns surrounding women's issues and feminist movements worldwide. Examines topics such as abortion, contraception, and sexual violence within a comparative and international framework.	Undergraduate	Gender and Sexuality	CHASS
GSST 021	Gender and Sustainability	<a href="#">GSST 021 - Gender and Sustainability at the University of California, Riverside   Coursicle UCR</a>	Grecia Perez, Ph.D	grecia.perez001@email.ucr.edu	5	Fall, Spring	Introduction to the relationship between gender and sustainability in global context. Draws on science, political ecology, and feminism as analytical lenses. Topics may include gender mainstreaming, economic development, ethics, ecology, population management, water treatment, sanitation, air quality, renewable energy, agriculture, political participation, community development, global capitalism, and environmental health.	Undergraduate	Gender and Sexuality	CHASS
GSST 030	Violence Against Women	<a href="#">GSST 030 - Violence Against Women at the University of California, Riverside   Coursicle UCR</a>	Taylor Riley, Ph.D	taylor.riley@ucr.edu	4	Winter	Addresses structural and interpersonal forms of violence against women and girls. Topics include sexual and physical abuse, rape and sexual assault, battering, body mutilation, forced sterilization or reproduction, sex selection, medical "silences," political torture, and gender-specific socialization for victimization and aggression. Also discusses state and economic policies.	Undergraduate	Gender and Sexuality	CHASS
GSST 125	Gender and Genocide	<a href="#">ANTH 106 - Gender and Genocide at the University of California, Riverside   Coursicle UCR</a>	Jessica Rehman, Ph.D	jessica.rehman@email.ucr.edu	4	Fall	Examines gendered dimensions of contemporary and historical genocides. Analyzes the ways gender ideologies intersect racialization and ethnic marking. Explores how gender shapes selection, forced labor, torture, and murder. Considers gender ideologies in relation to collective, institutional, and individual responses to genocide and genocidal campaigns. Cross-listed with GSST 125.	Undergraduate	Gender and Sexuality	CHASS
GSST 145	Intersectionality, Ecology, and Community Design	<a href="#">GSST 145 - Intersectionality, Ecology, and Community Design at the University of California, Riverside   Coursicle UCR</a>	Juliani Allison, Ph.D	julianne.allison@ucr.edu	4	Winter	Introduces theoretical underpinnings of ecological utopias and ecotopias. Examines practical aspects of designing these intentional communities focused on sustainability. Includes discussion and critique of proposed ecotopias, analysis of egalitarian economic systems, inclusive and participatory political institutions, and social mores adopted by existing ecovillages and other sustainable intentional communities.	Undergraduate	Gender and Sexuality	CHASS
GSST 164	Reproductive Justice	<a href="#">GSST 164 - Reproductive Justice at the University of California, Riverside   Coursicle UCR</a>	Jade Sasser, Ph.D	jade.sasser@ucr.edu	4	Fall	Introduces reproductive justice concepts of intersectionality, systemic oppression, the triple pillar approach, and human rights. Analyzes inequality and power in shaping the reproductive contexts of people's lives, behaviors, and outcomes.	Undergraduate	Gender and Sexuality	CHASS
GSST 171	Environmental Health and Social Justice	<a href="#">GSST 171 - Environmental Health and Social Justice at the University of California, Riverside   Coursicle UCR</a>	Chikako Takeshita, Ph.D	chikako.takeshita@ucr.edu	4	Fall, Spring	An interdisciplinary examination of the relationship between environmental health and social justice emphasizing gender, race, class, and globalization as analytical lenses. Topics include urban pollution, workplace exposure, industrial catastrophe, invisible environmental hazards, community activism, reproductive health, global capitalism, and new health challenges imposed by climate change.	Undergraduate	Gender and Sexuality	CHASS
GSST 185	Gender, Race, and Medicine	<a href="https://www.coursicle.com/ucr/courses/ANTH/144E/">https://www.coursicle.com/ucr/courses/ANTH/144E/</a>	Tamara Ho, Ph.D	tamara.ho@ucr.edu	4	Fall, Winter, Spring	Explores the relationship between Western medicine and women, racial minorities, and non-Western citizens. Investigates how gender ideology, racial inequity, and colonialism shape the medical representation of bodies, sexuality, and pathology. Examines how patients have renegotiated their relationships with medicine through health movements and alternative healing practices. Cross-listed with GSST 185.	Undergraduate	Gender and Sexuality	CHASS
HIST 107	Disease and Society	<a href="#">HIST 107 - Disease and Society at the University of California, Riverside   Coursicle UCR</a>	Antoine Lentacker, Ph.D	antoine.lentacker@ucr.edu	4	Winter	Covers a world history of disease and how it relates to cultural shocks, environmental change, and survival. Evaluates the complex and reciprocal relationship between illness and society, and the historical dynamics around power, race, gender, and class which define disease and shape life chances, medicine and health.	Undergraduate	History	CHASS
MCS 117	Posthuman Bodies in Science, Media, and Culture	<a href="https://www.coursicle.com/ucr/courses/MCS/117/">https://www.coursicle.com/ucr/courses/MCS/117/</a>	Gloria Kim, Ph.D	gloria.kim@ucr.edu	4	Winter, Spring	Introduces cultures and theories of posthuman media. Examines media technologies, representations, and representative practices in the sciences. Topics include biopolitics, posthumanism, ecosickness, and speculation. Approaches posthuman media studies with perspectives from queer theory, eco-feminist theory, and disability studies.	Undergraduate	Media and Cultural Studies	CHASS
MHHS 001	Introduction to Medical and Health Humanities	<a href="https://www.coursicle.com/ucr/courses/MHHS/001/">https://www.coursicle.com/ucr/courses/MHHS/001/</a>	Fuson Wang, Ph.D	fuson.wang@ucr.edu	4	Fall, Spring	Introduces medical and health humanities. Explores the importance of humanities and arts to medicine, the diverse understandings of health and illness, and the complex social and economic forces that inform how people are cared for during times of illness. Mandatory course in the Medical and Health Humanities minor.	Undergraduate	Medical and Health Humanites	CHASS
PBHL 200	Foundations of Public Health	<a href="#">PBHL 200 - Foundations of Public Health at the University of California, Riverside   Coursicle UCR</a>	Mark Wolfson, Ph.D	mark.wolfson@ucr.edu	4	Fall	Provides an introductory survey of the history, science, and principles of public health. Examines the major causes of morbidity and mortality in Inland Southern California, the United States, and globally. Introduces public health perspectives on health and illness, health inequities, and public health policy and practice locally, nationally, and globally.	Graduate	Public Health	School of Medicine

Class Code	Class Title	Link	Instructor Name	Instructor Contact Information	Units	Quarter/Semester Offered	Description	Course Level (Undergrad, Grad, etc.)	Host Department	Host College/School
PBHL 204	Epidemiology	<a href="#">PBHL 204 - Epidemiology at the University of California, Riverside   Coursicle UCR</a>	Mario Sims, Ph.D	mario.sims@ucr.edu	4	Winter	Introduces the basic concepts of epidemiology including disease transmission, measures of disease impact, cohort studies, estimating prevalence and risk, causal inference, and analyses of epidemiologic data for historical and contemporary issues in public health.	Graduate	Public Health	School of Medicine
PBHL 205	Environmental Health	<a href="#">PBHL 205 - Environmental Health at the University of California, Riverside   Coursicle UCR</a>	Marshane Perry, Ph.D	marshare.perry@ucr.edu	4	Winter	Examines the interdisciplinary relationship between environmental health and social justice emphasizing gender, race, class, and globalization as analytical lenses. Topics include urban pollution, workplace exposure, industrial catastrophe, invisible environmental hazards, community activism, reproductive health, global capitalism, and new health challenges imposed by climate change.	Graduate	Public Health	School of Medicine
PBPL 006	Introduction to Public Health	<a href="#">PBPL 006 - Introduction to Public Health at the University of California, Riverside   Coursicle UCR</a>	Richard Carpiano, Ph.D	richard.carpiano@ucr.edu	4	Fall, Winter	Introduces the field of public health as a multidisciplinary area of research and practice. Provides an appreciation of its approaches, goals, and history. Surveys its many conceptual and methodological tools for addressing a range of health issues.	Undergraduate	Public Policy	School of Public Policy
PBPL 127	Sociological Determinants of Health	<a href="#">PBPL 127 - Sociological Determinants of Health at the University of California, Riverside   Coursicle UCR</a>	Bruce Link, Ph.D	bruce.link@ucr.edu	4	Fall, Spring	Introduces the role that social factors play in shaping the occurrence and distribution of disease and death in populations with an emphasis on socioeconomic status, racism, social relationships and social stress. A particular emphasis is placed on sociological origins of health inequities.	Undergraduate	Public Policy	School of Public Policy
PBPL 160	Immigrant Health and Wellbeing	<a href="#">PBPL 160 - Immigrant Health and Wellbeing at the University of California, Riverside   Coursicle UCR</a>	Cecilia Ayon, Ph.D	cecilia.ayon@ucr.edu	4	Spring	Introduction to community-engaged methods in health disparities research. Examines health disparities and social determinants of health and conducts in-depth examination of community engaged research methods. Provides theoretical principles, methods, and skills needed to plan and implement community-engaged research.	Undergraduate	Public Policy	School of Public Policy
PHIL 009	Biomedical Ethics	<a href="https://www.coursicle.com/ucr/courses/PHIL/009/">https://www.coursicle.com/ucr/courses/PHIL/009/</a>	Kendra Chilson, Ph.D	kendra.chilson@email.ucr.edu	4	Fall, Spring	Introduces the major camps in ethical theory: utilitarianism, deontology, virtue ethics, and feminist ethics. Applies these theories to critically examining contemporary issues in bioethics. Includes stem-cell research, assisted reproductive technologies, contract gestation, maternal-fetal conflicts, genetic and pharmacological enhancements, access to health care, and physician-assisted suicide. Credit is awarded for one of the following PHIL 009 or PHIL 009H.	Undergraduate	Philosophy	CHASS
PHIL 167	Biomedical Ethics	<a href="https://www.coursicle.com/ucr/courses/PHIL/167/">https://www.coursicle.com/ucr/courses/PHIL/167/</a>	Maxine McCuller, Ph.D	maxine.mcculler@email.ucr.edu	4	Winter, Spring	A philosophical discussion of newly emerging issues, both ethical and social, in biology and medicine, such as genetic engineering, euthanasia, experimentation with human subjects, abortion, behavior control, and patient's right to know.	Undergraduate	Philosophy	CHASS
POSC 017	Politics of the Underdeveloped World	<a href="https://www.coursicle.com/ucr/courses/POSC/017/">https://www.coursicle.com/ucr/courses/POSC/017/</a>	Marina Chebly, Ph.D	marina.chebly@email.ucr.edu	5	Winter, Spring	An introduction to the political processes and problems confronting states in the Global South. Topics include political and economic development issues such as poverty, violence, dictatorship, regime types, regime transitions, corruption, and patronage.	Undergraduate	Political Science	CHASS
POSC 180	The Politics of Public Health	<a href="https://www.coursicle.com/ucr/courses/POSC/180/">https://www.coursicle.com/ucr/courses/POSC/180/</a>	Idiana Salam, Ph.D	idiana.salam@email.ucr.edu	5	Fall, Spring	Focuses on the social, environmental, and political factors that shape population health. Utilizes public health topics to illustrate the fundamental problems of the politics of regulation and social policy. Credit is awarded for only one of POSC 180 or POSC 180S.	Undergraduate	Political Science	CHASS
RLST 122	Medicine and Asian Religions in Global Circulation	<a href="https://scienctechstudies.ucr.edu/courses">https://scienctechstudies.ucr.edu/courses</a>	n/a	n/a	4	n/a	Considers the relationship between religious cosmologies, the organization of knowledge, and the practices for managing bodily and natural order that underpin three major medical traditions of Asia in premodern and modern periods: Ayurveda, Traditional Chinese Medicine, and Tibet's Four Tantra Tradition.	Undergraduate	Religious Studies	CHASS
SEHE 002	Health Equity & Health Justice	<a href="https://www.coursicle.com/ucr/courses/SEHE/002/">https://www.coursicle.com/ucr/courses/SEHE/002/</a>	Changes by Quarter		4	Fall, Winter, Spring	Introduces theories and methodologies for the study of community health as well as global and local health inequities. Identifies health disparities trends, patterns, and causes in the United States and globally including historical, social, and structural factors. Considers policies and interventions addressing health disparities including community-engaged research. Offered online only.	Undergraduate	Society, Environment, and Health Equity	CHASS
SEHE 101	Community Research & Anti-Oppressive Methods	<a href="https://www.coursicle.com/ucr/courses/SEHE/001/">https://www.coursicle.com/ucr/courses/SEHE/001/</a>	Milly Itzhak, Ph.D	milly.itzhak@email.ucr.edu	4	Fall, Winter, Spring	Introduces humanities and social sciences approaches in environmental studies to examine how society and human values affect the natural environment. Topics include agriculture and food security, biodiversity conservation, climate change, and deforestation. Introduces the role of race, class, and gender in shaping environmental burdens, benefits, and activism. Offered online only.	Undergraduate	Society, Environment, and Health Equity	CHASS
SEHE 105	Environmental Health & Social Justice	<a href="https://www.coursicle.com/ucr/courses/SEHE/105/">https://www.coursicle.com/ucr/courses/SEHE/105/</a>	Chikako Takeshita, Ph.D	chikako.takeshita@ucr.edu	4	Spring	An interdisciplinary examination of the relationship between environmental health and social justice emphasizing gender, race, class, and globalization as analytical lenses. Topics include urban pollution, workplace exposure, industrial catastrophe, invisible environmental hazards, community activism, reproductive health, global capitalism, and new health challenges imposed by climate change. Cross-listed with GSST 171.	Undergraduate	Society, Environment, and Health Equity	CHASS
SEHE 106	Movements & Advocacy in Environment & Health	<a href="https://www.coursicle.com/ucr/courses/SEHE/106/">https://www.coursicle.com/ucr/courses/SEHE/106/</a>	Ellen Reese, Ph.D	ellen.reese@ucr.edu	4	Spring	An overview of contemporary, comparative, and historical research on social and political movements. Includes legal and policy advocacy, health equity, sustainability, and environmental justice. Examines the motivations, visions, and contexts shaping these movements. Also examines movement and advocacy outcomes, challenges, and opportunities for promoting health equity and environmental justice. Credit is awarded for one of the following SEHE 106 or SEHE 106S.	Undergraduate	Society, Environment, and Health Equity	CHASS

SEHE 110	Environmental Health in Southern California	<a href="https://www.coursicle.com/ucr/courses/SEHE/110">https://www.coursicle.com/ucr/courses/SEHE/110</a>	n/a	n/a	4	Fall	Interdisciplinary cross-examination of environmental challenges, social inequities, human health consequences, and environmental justice activism focusing on Southern California. Investigates the historical contribution of regional industrial developments and racial stratification to poor environmental health. Examines the spatial distribution of environmental and health burdens using California's mapping and indexing tools.	Undergraduate	Society, Environment, and Health Equity	CHASS
SEHE 116	Intersectionality, Climate Emotions, and Mental Health	<a href="https://www.coursicle.com/ucr/courses/SEHE/116">https://www.coursicle.com/ucr/courses/SEHE/116</a>	Jade Sasser, Ph.D	jade.sasser@ucr.edu	4	Spring	Introduces emotional responses to climate change. Identifies the relationships between emotions and mental health outcomes. Explores the roles of race, gender, age, and social marginalization.	Undergraduate	Society, Environment, and Health Equity	CHASS
SEHE 123(S)/ GSST 161(S)	Gender and Science	<a href="https://www.coursicle.com/ucr/courses/SEHE/123">https://www.coursicle.com/ucr/courses/SEHE/123</a>	Chikako Takeshita, Ph.D	chikako.takeshita@ucr.edu	4	Winter	Focuses on the intersections of Western constructions of gender and scientific knowledge since the sixteenth century. Considers the cultural and political roles of the scientist in terms of gender; the structuring of objectivity and objects of study; the status of scientific knowledge; and the emergence of feminist science studies. Cross-listed with GSST 161. Credit is awarded for one of the following GSST 161, SEHE 123, GSST 161S, or SEHE 123S.	Undergraduate	Society, Environment, and Health Equity	CHASS
SEHE 129	Food Justice	<a href="https://www.coursicle.com/ucr/courses/SEHE/129">https://www.coursicle.com/ucr/courses/SEHE/129</a>	Dana Simmons, Ph.D	dana.simmons@ucr.edu	4	Fall	Explores relations of power, love, desire, hunger, and taste through food and food systems. Considers how food is found, grown, made, bought, sold, shared, and consumed. Covers food apartheid and cancer food systems; metabolic disease; nutrition and nourishment; the right to food; and movements to decolonize food systems.	Undergraduate	Society, Environment, and Health Equity	CHASS
SEHE 161/ GSST 164	Reproductive Justice	<a href="https://www.coursicle.com/ucr/courses/SEHE/161">https://www.coursicle.com/ucr/courses/SEHE/161</a>	Jade Sasser, Ph.D	jade.sasser@ucr.edu	4	Fall	Introduces reproductive justice concepts of intersectionality, systemic oppression, the triple pillar approach, and human rights. Analyzes inequality and power in shaping the reproductive contexts of people's lives, behaviors, and outcomes. Cross-listed with GSST 164.	Undergraduate	Society, Environment, and Health Equity	CHASS
SEHE 162	Giving Birth	<a href="https://sehe.ucr.edu/gch-major">https://sehe.ucr.edu/gch-major</a>	n/a	n/a	4	n/a	n/a	Undergraduate	Society, Environment, and Health Equity	CHASS
SEHE 163	Globalizing Roe: The Past, Present, and Future of Abortion Worldwide	<a href="https://www.coursicle.com/ucr/courses/SEHE/163">https://www.coursicle.com/ucr/courses/SEHE/163</a>	Cassia Roth, Ph.D	cassia.roth@ucr.edu	4	Spring	Surveys the modern history of abortion policy and provision from legal, medical, religious, and public health perspectives. Centers the lived experiences of different individuals in their need to access abortion from a global lens.	Undergraduate	Society, Environment, and Health Equity	CHASS
SEHE 172	Public Health: Then and Now	<a href="https://www.coursicle.com/ucr/courses/SEHE/172">https://www.coursicle.com/ucr/courses/SEHE/172</a>	Cassia Roth, Ph.D	cassia.roth@ucr.edu	4	Spring	Surveys the modern history of societal attempts to protect the health of human populations. Focuses on the lived experiences of individuals and cultures in the development of public health globally.	Undergraduate	Society, Environment, and Health Equity	CHASS
SEHE 173/ HIST 107	Disease and Society	<a href="https://www.coursicle.com/ucr/courses/SEHE/173">https://www.coursicle.com/ucr/courses/SEHE/173</a>	Antoine Lentacker, Ph.D	antoine.lentacker@ucr.edu	4	Winter	Covers a world history of disease and how it relates to cultural shocks, environmental change, and survival. Evaluates the complex and reciprocal relationship between illness and society, and the historical dynamics around power, race, gender, and class which define disease and shape life chances, medicine and health. Cross-listed with HIST 107.	Undergraduate	Society, Environment, and Health Equity	CHASS
SEHE 174	Eugenics, Disability and Social Justice	<a href="https://sehe.ucr.edu/gch-minor">https://sehe.ucr.edu/gch-minor</a>	n/a	n/a	4	n/a	Analyzes social movement activism around medicine, health and disability. Topics include Black Panther Party survival programs, medicine and civil rights, occupational safety, HIV/AIDS, environmental justice, genetic testing, food systems, disability rights and healthcare access.	Undergraduate	Society, Environment, and Health Equity	CHASS
SEHE 175	Transforming Toxic Jobs: Health and Work in the United States	<a href="https://sehe.ucr.edu/gch-major">https://sehe.ucr.edu/gch-major</a>	Jodi Kim, Ph.D	jodi.kim@ucr.edu	4	Winter	Analyzes Asian American autobiographies and films written and directed by women. Explores why the genre of autobiography is enabling and contentious within Asian American women's writings. Examines films to see how such women filmmakers contend with memory, gender, and identity. Cross-listed with GSST 124, and MCS 123.	Undergraduate	Southeast Asian Studies	CHASS
SEHE 176	Race, Gender, and Health: Diasporic Perspectives	<a href="https://www.coursicle.com/ucr/courses/SEHE/176">https://www.coursicle.com/ucr/courses/SEHE/176</a>	Cassia Roth, Ph.D	cassia.roth@ucr.edu	4	Winter	Surveys ways in which historical legacies of slavery and racialization affect the health of racialized peoples from a diasporic perspective. Focuses on (but not limited to) the African diaspora in the Americas. Offered online only.	Undergraduate	Society, Environment, and Health Equity	CHASS
SEHE 178/ SOC 144	Interpersonal Relationship Violence	<a href="https://sehe.ucr.edu/gch-minor">https://sehe.ucr.edu/gch-minor</a>	n/a	n/a	4	n/a	Cross-cultural examination of the global Human Immunodeficiency Virus (HIV) epidemic from an anthropological perspective. Cross-listed with ANTH 144.	Undergraduate	Society, Environment, and Health Equity	CHASS
SEHE 182	Drugs and Culture	<a href="https://www.coursicle.com/ucr/courses/SEHE/182">https://www.coursicle.com/ucr/courses/SEHE/182</a>	Jennifer Syvertsen, Ph.D	jennifer.syvertsen@ucr.edu	4	Winter	A cross-cultural examination of drug use and its relation to race, class, gender, morality, laws, and health policy. Cross-listed with ANTH 144K.	Undergraduate	Society, Environment, and Health Equity	CHASS
SEHE 183	Anthropology of Global Health	<a href="https://www.coursicle.com/ucr/courses/SEHE/183">https://www.coursicle.com/ucr/courses/SEHE/183</a>	Jennifer Syvertsen, Ph.D	jennifer.syvertsen@ucr.edu	4	Fall	Examines the overlaps, debates, and potential of medical anthropology to address contemporary issues in global health. Focuses on how the historical development, theoretical frameworks, methodological approaches, and ethical debates within medical anthropology can contribute to a just and inclusive version of global health. Cross-listed with ANTH 144N.	Undergraduate	Society, Environment, and Health Equity	CHASS
SEHE 185ABC/SPN 108ABC	Spanish for the Health Professions	<a href="https://sehe.ucr.edu/gch-major">https://sehe.ucr.edu/gch-major</a>	n/a	n/a	n/a	n/a	n/a	Undergraduate	Society, Environment, and Health Equity	CHASS
SEHE 189	Special Topics in Global and Community Health	<a href="https://sehe.ucr.edu/gch-major">https://sehe.ucr.edu/gch-major</a>	n/a	n/a	n/a	n/a	n/a	Undergraduate	Society, Environment, and Health Equity	CHASS
SOC 120	Society and Mental Health	<a href="https://www.coursicle.com/ucr/courses/SOC/120/">https://www.coursicle.com/ucr/courses/SOC/120/</a>	Bruce Link, Ph.D	bruce.link@ucr.edu	4	Spring	Covers the social causes and patterns of mental health and disorder in the United States. Examines scientific research on the social determinants of mental health and disorder, inequalities of mental health, and access to mental health care and US mental health care policies.	Undergraduate	Sociology	CHASS

Class Code	Class Title	Link	Instructor Name	Instructor Contact Information	Units	Quarter/Semester Offered	Description	Course Level (Undergrad, Grad, etc.)	Host Department	Host College/School
SOC 127	<b>Sociological Determinants of Health</b>	<a href="https://www.courcicle.com/ucr/courses/SOC/127/">https://www.courcicle.com/ucr/courses/SOC/127/</a>	Bruce Link, Ph.D	bruce.link@ucr.edu	4	Fall, Spring	Introduces the role that social factors play in shaping the occurrence and distribution of disease and death in populations with an emphasis on socioeconomic status, racism, social relationships and social stress. A particular emphasis is placed on sociological origins of health inequalities. Cross-listed with PBPL 127.	Undergraduate	Sociology	CHASS
SOC 167	<b>Medical Sociology</b>	<a href="https://www.courcicle.com/ucr/courses/SOC/167/">https://www.courcicle.com/ucr/courses/SOC/167/</a>	Bryce Ritt, Ph.D	bryce.ritt@email.ucr.edu	4	Winter	Introduces key concepts and theories in medical sociology and their application to a variety of health issues. Exemplar topics include social construction of health and illness, medicalization, stigma and labeling, patient-provider interaction, sociology of medical professionals, social determinants of health, and political economy of health.	Undergraduate	Sociology	CHASS
